

CATCHMENT MAP

Our core catchment is the darker shaded area – Regent Park, Moss Park & Rivertowne.

However, our flexible catchment (lighter shaded area) allows us to take in students that live around the broader boundary. This is not a strict boundary, as special exceptions can be applied. If you are unsure about a student's eligibility, please obtain their contact information and check in with Program Director or the Coordinators. If you know of a student's compelling case, but they live outside of the flexible catchment, please do check in with Program Director or the Coordinators.
